*Recovery Rivyved*

## About Us

Our recovery team consists of licensed caring professionals with decades of experience running successful addiction recovery centers. We have helped thousands to gain freedom from addiction and begin new lives filled with recovery, hope, and peace.

Addiction often has root causes in trauma and co-occurring disorders. Our recovery team works together to treat the addiction as well as the underlying disorders and trauma. These can range from depression and anxiety to post traumatic stress disorder and more.

Treating only the addiction is merely a band-aid. By addressing each resident's unique challenges we are providing the optimal opportunity to obtain a lifestyle of recovery that lasts.

\*\*Residents must be 18yrs or older and capable of performing daily self-care functions.

## Licensed Caring Professionals To Help You Navigate Your Recovery

Our residential program and staff are fully committed to providing the highest level of care to our residents.

At the outset of the admissions process, each resident is thoroughly evaluated and an individual treatment plan is created to meet their unique needs.

Our team of specialists provide:

- 24 hour/day monitoring by addiction treatment specialists
- MAT - Medically Assisted Treatment
- Medication management
- Individual therapy sessions
- Group therapy
- Evidence based therapy such as CBT (Cognitive Behavioral Therapy)
- Experiential therapy / Art therapy
- Family therapy
- Customized treatment goals
- Relapse prevention / Life skills training
- Co-dependency training

## Our Unique Advantage

When creating Rivyve, we knew we wanted to maximize our residents' success. To accomplish this, we have recruited top leaders to develop and maintain a powerful culture that is deeply rooted in the belief that what is verbally taught is never as powerful as modeled behaviors.

With this at the forefront of Rivyve Culture, we know that the examples of our staff on every level will be key to the success of our residents. Our staff are trained and supported weekly in maintaining a life filled with healthy balance enabling them to model key behaviors that will help our residents in their life of sobriety.
